

IDEA OF AMERICA NETWORK: GETTING ABOARD!

CONCERNED ABOUT OUR FUTURE ?

WANT TO DO SOMETHING ?

WANT TO MAKE A DIFFERENCE ?

GET ABOARD !

Idea of America Network is a non-profit 501(c)(3) corporation established in the Commonwealth of Virginia as an educational institution for the purpose of developing and conducting seminars and programs for promoting the common good of the nation as exemplified in the core values that formed our nation and that are shaping our future.

The Idea of America Network was initially established in 2014 as a program of pilot projects testing the concepts and structure of a civic-minded adult seminar built on discussion and debate. Over the next three years, 40 seminars and projects were conducted in eight states involving over 500 participants. The results were so successful that the project has now been formed into a nationwide platform for expanding seminars and projects designed to achieve the three goals stated previously. Three specific platforms have been established to serve as the base on which to further develop and launch Idea of America programs. Our goal is to identify and work with local groups and institutions who want to engage in this important effort to promote the common good of our society and our nation.

We have developed three specific platforms for becoming engaged in the Idea of America Network.

Platform One: Idea of America Seminar Program

Platform Two: Coming of Age in America Youth Program

Platform Three: College-University Curriculum Program

Each of these platforms are discussed in more detail in this website, along with information and material for becoming engaged in any of the three programs. However, you can become engaged as an individual who simply wants to learn more about our founding values and how those values are shaping our future. Simply order the material and download the study guide.
